

**Amendments to the Claims:** This listing of claims will replace all prior versions, and listings, of claims in the application

#### Listing of Claims

1. (Currently Amended) ~~Multipurpose~~A multipurpose dispenser, ~~of the type for use with batteries to dispense a product comprising:~~

a frame ~~(1)~~ provided with wall support means ~~(2)~~ and a front cover ~~(5)~~,

at least one deposit for a product to be dispensed, and

at least one dispensing mechanism activated by driving means powered by said batteries, ~~and characterised in that it comprises~~

two deposits ~~(7)~~ and ~~(10)~~ for products to be dispensed, where one of said deposits ~~(7)~~ incorporates a valve ~~(20)~~, which in the top part thereof has a push-button ~~(19)~~ that is activated by a pusher element ~~(18)~~ driven by the movement of a motor ~~(15)~~ that is transmitted via gears ~~(16)~~ and ~~(17)~~,

said motor ~~(15)~~ being powered by said batteries located in a housing ~~(22)~~ and controlled by a control plate ~~(21)~~, which in turn controls and combines the operation of said motor ~~(15)~~ with that of another motor ~~(14)~~ that drives a fan ~~(13)~~ which circulates the air that is in contact with a product evaporated by a cord ~~(11)~~ located in the other of said deposits ~~(10)~~, all this being combined in a simultaneous or alternative fashion, according to the control plate ~~(21)~~ programming.

2. (Currently Amended) ~~Multipurpose~~The multipurpose dispenser according to claim 1, ~~characterised in that~~wherein said cover ~~(5)~~ ~~includes~~ comprises gratings ~~(24, 25, 26)~~ in the top, central and bottom parts thereof, respectively, which cause the air current generated by the fan ~~(13)~~ to circulate through them and the circulating air to come into contact with the product evaporated from the deposit ~~(10)~~ by said cord ~~(11)~~.

3. (Currently Amended) ~~Multipurpose~~The multipurpose dispenser according to claim 2, ~~characterised in that~~wherein said push-button ~~(19)~~ is a sprayer push-button which dispenses the product contained in deposit ~~(7)~~ directly into the outside atmosphere via a window ~~(27)~~ included for this purpose in the front cover ~~(5)~~ of the dispenser, in simultaneous or alternative

combination with the dispensing of the product contained in the deposit-(10) by means of said gratings-(24, 25 and 26).

4. (Currently Amended) ~~Multipurpose~~The multipurpose dispenser according to claim 2, ~~characterised in that~~wherein said push-button-(19) dispenses the product contained in the deposit-(7) into small pipes that are supported on the frame by a pin or support-(9) and traversed by an exit-(8) and directed towards the corresponding channels or pipes, to be treated in a dropwise manner, in simultaneous or alternative combination with the dispensing of the product contained in the deposit-(10) by means of said gratings-(24, 25 and 26).

Respectfully submitted,

RatnerPrestia
